#### Minor Puppy Dog or Bitch. (2)

1st, and BPIS Freegards Mumtaz Obsession , delightful 6month old black fringed fawn bitch at her first show. What a lovely promising little girl. Beautiful head and expression with well set ears. Good length of neck into good shoulders. Nice length of upper arm, good bladed bone to good feet. Top and underline as you would want for this age with good width between her hips. Well set tail and tail of good length. Good width to thighs and nice low set hocks. A little all over the place on the move but she is only 6 months and did enough to beat her very similar brother . I shall watch her progress with interest.

2nd. Thomas Mumtaz Aramis. Many of the above remarks also apply to this boy. Really just a male version of his sister. Again, a lovely head and expression with well set ears and like his sister a nice front assembly, good bone to his feet. Also a good top and underline. Good width to thighs and nice low hocks, both have good feet, toes long and well arched. Like his sister he was rather exuberant on the move. A very nice dog puppy who I hope we get to see again.
